WE BEAT THE DUST!

THE RIGHT SOLUTION FOR EVERY DUST PROBLEM!

MB DUST CONTROL

Fine dust emissions are hazardous. For years, MB Dustcontrol has been manufacturing fog/misting solutions that optimally control dust and minimize the risks. Our proven system consists of weighing down the emitted dust particles by binding them with droplets of water so they quickly fall to the ground through gravity.

SPRAYCANNON 60-SMT...MAXIMUM DUST SUPPRESSION RESULT WITH MINIMUM WATER USAGE!

SPRAYCANNON 60-SMT

The SprayCannon 60-SMT Self is especially designed to cover outdoor areas where dust and odour suppression is required and where you are confronted with a rough terrain. The machine is perfectly suitable for demolition, recycling and construction applications. Also it can be successfully used at asbestos removal sites. The system is fully Remote Controlled and contains of a Spraycannon 60 on a hydraulic 6 meter high mast, Generator, Pressure Pump, Electrical Oscillation and Elevation, all integrated on a Heavy Duty Rubber Track undercarriage.

The SprayCannon 60-SMT will create very fine mist and due to the Air Flow coming from the fan, the very fine water droplets will be thrown to 60 meters far or up to 20 meter high.

This SprayCannon will take care of the job properly and safe!
